

Attractive employer: Theben certified as a Great Place to Work®

(Haigerloch, 11 December 2020) Theben AG has recently been recognised as an attractive employer for 2021 in the context of the Great Place to Work® Certified certification programme. The certification is partly based on anonymous feedback provided by company employees.

Theben underwent assessment by its employees as part of the internationally established certification process and was certified in recognition of its attractiveness as an employer. The accolade honours fair, credible leadership and active employee development. Respect, trust, pride and team spirit all play a key role in the company culture.

“We are delighted to have received this accolade – particularly as it also reflects the opinion of our employees,” says Paul Sebastian Schwenk, Chairman of the Board of Management at Theben AG. “The certification will also motivate us to keep developing as an employer and to keep strengthening Theben’s brand in this regard.”

About Great Place to Work®

The Great Place to Work® Certified certification programme is run by the Great Place to Work® international research and consulting institute and honours companies that are particularly committed to creating a positive workplace culture. The accolade is awarded by means of a verified procedure and is valid for one year. The key components of the procedure are independent, anonymous employee feedback and an analysis of HR measures and programmes.
