

Directive REACH 1907/2006

Dear Customer

We herewith confirm that we continually check our products and their packaging in accordance with the REACH regulation 1907/2006 and the latest SVHC list.

As far as we know, our products do not contain any of the substances in concentrations > 0.1% that are restricted or subject to declaration by the above-mentioned regulation, with the following exceptions:

- Lead (CAS 7439-92-1): Partly in copper alloys and electronic components
- EGDME (1,2-dimethoxyethane, CAS 110-71-4): Solvents in lithium batteries
- 6,6'-di-tert-butyl-2,2'-methylenedi-p-cresol (CAS 119-47-1): In the label adhesive of certain Timers with adhesive labels and in the rubber end seal of some capacitors
- Medium-chain chlorinated paraffins MCCP (CAS 85535-85-9): In the insulation of some cables

According to the REACH regulation 1907/2006, these substances must be declared according to Art. 33, but are not prohibited!

These substances do not pose any risk to your health and the environment if our products are properly used.

The use of these substances is in accordance with the applicable statutory regulations.

Please contact us if you require further information.

Best regards,

i.V. Gerd Ulrich
